

Fig. 115. Lord Howe island

According to recent information the heights of mounts Gower and Lidgbird are 2,840 ft. and 2,504 ft. respectively. The number of guest-houses on the island has increased considerably in recent years. Based on: (1) Admiralty chart no. 350; (2) *National Geographic Magazine*, vol. LXVIII, p. 118 (Washington, 1935).
