

LOP $LHA = 180 - t = 180 - 93 = 87$

STEP 2: Mark on this scale LOCAL HOUR ANGLE pt t; draw vert.line through it. It intersects curve C at pt A

STEP 3: Mark on this scale ALTITUDE pt n; draw hor. line through it. It intersects curve C at pt B

STEP 1: Mark on this scale DECLINATION pt d; draw hor. line through it

STEP 4: Draw vert. line through pt B. It intersects this axis at pt. Z. Result: AZIMUTH = Z

Azimuth by Graphical Method
